Dear Participant/Team Leader,

We hope this email finds you well.

We recently noticed a small error in the preliminary problem statement that was shared earlier. In the "**Office Setup**" section, the total number of devices was incorrectly mentioned as 18.

Correction: Every room has 2 fans and 3 lights (6 devices per room $\times$ 3 rooms = **15 devices total**).

We have attached the corrected version of the problem statement: ***Hackathon Problem Statement (Preliminary Round) v1.1.pdf***.

Please use this updated document for your submission. All other details, requirements, deliverables, and deadlines remain the same.

-  **Submission Deadline:** 4 July 2026, 6:00 PM
 **Submission Link:** <https://forms.gle/cSD1D3HjYFihEJqS9>

We apologize for any inconvenience this may have caused. If you have any questions regarding the correction or the problem statement, feel free to reach out.

Thank you for your understanding, and best of luck with your projects! We're excited to see your creative solutions.

Regards,

Anayat Uddin Prodhan
President
IUT Robotics Society
Islamic University of Technology (IUT), Gazipur-1704, Bangladesh
